

# ULTRA hydraulic oil

	Application	Product	Benefit
	A premium quality zinc free (ash free) high performance hydraulic oil for use in systems containing silver plated components or where enhanced water tolerance and improved filterability is required.	<b>ULTRA AF ZINC &amp; ASH free</b> ISO VG 3, til 460.	Zinc and ash free Ultra AF is manufactured from highly refined base oils which have good oxidation resistance lowering the possibility of gums and lacquers
	A high viscosity index hydraulic fluid with multigrade characteristics.	<b>ULTRA MG MULTI-GRADE</b> DIN 51 524 Del 2, DIN ISO 6743 Del 4, DIN 51 517 Del 3, FZG > 12.	It is particularly beneficial where extremes of ambient temperatures are encountered.
	A premium performance, water containing, synthetic hydraulic fluid, which conforms to the requirements of ISO12922 for type HFC fluids.	<b>ULTRA WG 12 BRANDHÆMMEDE ISO VG 52.</b>	Ultramax WG 12 greatly reduces risks where hydraulic equipment operates near flames, hot surfaces or molten metals and is particularly suited to systems that require a balanced combination of fire resistance and good lubrication

## Libra Grease

	Application	Product	Benefit
	A premium lithium soap thickened high melting point grease, EP treated with good anti-corrosion properties.	<b>LIBRA L2EP</b>	Libra EP2 is recommended for use in highly loaded industrial and automotive applications such as wheel bearings, pump bearings etc. It is suitable for use in high pressure greasing equipment.
	A premium lithium soap thickened high melting point grease	<b>LIBRA L2M</b>	
	A specially developed multi-purpose lubricating grease for all anti-friction and plain bearing applications.	<b>LITHIUM COMPLEX</b>	<b>This grease has exceptional stability performance over a wide, elevated temperature range and can allow longer periods between re-lubrication compared with standard greases.</b>
