

Oil products for machine industry.

Industri and Proces oils

	Anvendelse	Produkt	Fordele
	A high quality, straight paraffinic mineral oil suitable for a variety of general purpose machine applications	MICRON GP Machine oil ISO VG3 til 680.	It possesses high thermal and chemical stability, is non-corrosive and is of low aromaticity. It exhibits extremely good oxidation stability and resists the formation of harmful gums and lacquers
	A high quality machine tool lubricant designed to give optimum performance on slideways and machine beds.	TACHUS Machine and slideway oil ISO VG 32 til 220.	Specialised additives eliminate stick-slip problems and component finish is thereby improved. It has been manufactured from carefully selected base oils and anti wear, extreme pressure and anti corrosion additives
	A heavy duty mineral oil based gear lubricant for a wide variety of industrial applications	TROJAN Gear oils ISO VG 68 til 1000.	This oil demonstrates superior extreme pressure performance for extended gear life in highly loaded systems and outstanding oxidation stability. Also suitable for use in certain bearing lubrication applications.
