

Soluble Oil Cutting & Grinding Fluids

Emulsions product

	Application	Product	Benefit
	A high quality, universal soluble oil which requires minimal maintenance in even the most demanding fluid management systems	TRIM E 715	Extremely hard water tolerant High quality product.
	Soluble cutting and grinding fluids for allround operations	TRIM E 850	Very long sump life and low carry-off rates result in low operating cost. Low foam even in soft water areas. Hard water tolerant.
	Exceptional surface finish and tool life on difficult to machine aluminium alloys, inconel, titanium, stainless and high tensile strength steels.	TRIM E 950 High performance.	Very long sump life and low carry-off rates result in low operating cost. Low foam even in soft water areas. Hard water tolerant. Compatible with all materials excluding magnesium. Easily recycled or disposed of without special handling or equipment.
	Special cutting fluid for processing of brass	TRIM CoolPAK S5249	Extremely good properties for keeping machines clean and surfaces free of copper grease. Very long sump life and low carry-off rates result in low operating cost.
